RICE DISHES

1 CHOOSE YOUR RICE

BLACK RICE 2.95

it's not soaked in cuttlefish ink. Black is it's real colour! With almost three times more proteins and the double of fibres than Brown rice, this variety can amaze you!

WILD RICE 4.80

it's one of a kind! Rich in proteins, fibres and amino acids, presents the lowest fat percentage. It's a perfect side to go with fish dishes.

RED RICE 2.95

more than creating an amazing colourful dish, it also contains a substance called "monocolina" that helps digestion and lowers cholesterol levels.

PERSIAN 1.95

Using basmati rice as its base it is boiled with ginger and cardamom. After that we mix it with olive oil, grapes, almonds and saffron. Goes to the oven and comes served loose and highly flavoured.

BASMATI 0,95

with it's long and aromatic grains, it's the Prince of all rices! It's frequently used in Indian cuisine. Our Turkey Tandoori didn't resist it (and they lived happily ever after)!
